Work Experience

UX Designer @ **Swap space**

Dubai (Fulltime)

📅 APRIL 2023 – PRESENT

I'm responsible for conducting user research to understand the needs of real estate users, including homebuyers, sellers, agents, and property managers. The research insights inform their design decisions, leading to user-centered solutions. I collaborate with cross-functional teams to brainstorm and develop innovative concepts for new digital products or features, which are then translated into tangible designs through wireframes, mockups, and prototypes.

UI/UX Designer @ **Sixsol technologies**

Pakistan (Contract)

📅 DEC 2022 - MARCH 2023

I conducted extensive user research to gain a deep understanding of the needs, preferences, and pain points of both customers and staff who will interact with the POS system. The research serves as a guide throughout the design process, ensuring that the system is tailored to meet the specific requirements and expectations of the users. By incorporating user insights, I designed a POS system that delivers a seamless and user-friendly experience for all stakeholders involved.

UI/UX Designer @ **Microbridge**

Nigeria (Fulltime)

📅 JAN 2021 - DEC 2022

Responsible for designing and developing new products, as well as improving and updating existing ones. This includes conducting research, creating sketches and prototypes, and working with engineers and other team members to bring the product to market.

Visual Designer @ **Onepint**

Nigeria (Contract)

📅 FEB 2022 - JULY 2022

Redesigned current user interfaces to more effectively accommodate device responsiveness, and developed prototypes for improved interaction and usability testing.

Conducted product design usability testing with other research methodology tools, so as to meet up to users' needs.

UI Designer @ **Stetis limited**

Nigeria (Internship)

📅 AUG 2019 - SEPT 2022

Started by being familiar with the layout and component features of Figma while learning the current product design standards, design system, and style guides.

Worked together with team members to collect and assess user needs.

Education

Federal university of technology, Minna

Bachelor of technology (Statistics)

Certifications

Coursera

Google UX Design Professional Certificate

What I know

Design Tools

Figma · Sketch · Adobe Photoshop · Adobe Illustrator · Adobe XD · InVision

Skills

User Research · Information Architecture · Wireframing · Prototyping and User Testing · Visual Design
